CE lecture presented by Farshid Ariz, D.M.D.

"Why Patients are Suffering from TMD & Craniofacial Pain?"

Preventive medicine is the future of dentistry, it can eliminate unwanted costs and provide rapid pain relief to our patients.

Development of TMD and Craniofacial pain can be prevented by the understanding and physiology of our body. We will be evaluating the current approach and treatment modalities which are research-based evidence and paradigm changes.

Earn 3 CE credits.

Dinner provided.

Space is limited.
